

## VIRGINIA TECH - MFT DOCTORAL PROGRAM

### Clinical Background Information

All MFT doctoral students are required to complete 1000 client-contact hours, 400 of which must be relational, before graduation. Students must also complete 200 hours of individual or group supervision from an AAMFT-Approved Supervisor, an AAMFT Supervisor Candidate, or the equivalent. At least 100 of the total number of supervision hours must be in an “individual” setting (two or fewer supervisees). At least 50 supervision hours must be live, audio, or video supervision. These standards have been established by the Virginia Tech MFT doctoral program and are informed by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE).

Students who enter the program with client contact and appropriate supervision hours, either from their master’s programs or other clinical work, may transfer up to 500 client contact hours and 100 supervision hours towards the MFT program’s clinical requirements. Regardless of the number of transferrable hours, however, all program students continue clinical work while enrolled and receive regular individual, group, live, case report, and video supervision.
